

hey chat how do you solve 3- 2

 The solution to $3 - 2$ is 1.

how do you make a muffin

Here's a simple recipe to make basic muffins:

Ingredients:

- 1 ¼ cups all-purpose flour
- ½ cup sugar
- 2 teaspoons baking powder
- ¼ teaspoon salt
- 1 egg
- ¾ cup milk
- ¼ cup vegetable oil or melted butter
- 1 teaspoon vanilla extract (optional)

Instructions:

1. **Preheat oven:** Preheat your oven to 375°F (190°C) and line a muffin tin with paper liners or grease it.
2. **Mix dry ingredients:** In a large bowl, whisk together the flour, sugar, baking powder, and salt.
3. **Mix wet ingredients:** In another bowl, whisk the egg, milk, oil (or butter), and vanilla extract until well combined.
4. **Combine:** Add the wet ingredients to the dry ingredients and stir until just combined. Do not overmix—it's okay if there are some lumps.
5. **Fill muffin tin:** Divide the batter evenly among the muffin cups, filling each about ¾ full.
6. **Bake:** Bake for 18–20 minutes, or until a toothpick inserted into the center comes out clean.
7. **Cool:** Let the muffins cool in the pan for a few minutes, then transfer to a wire rack to cool completely.

Enjoy your muffins! You can also add things like chocolate chips, blueberries, or nuts to the batter for extra flavor.
